### THE LEDGER..

is the largest daily paper printed in Maysville--costs the columns and measure their

It gives you more reading matter than any other.

It is sold at the same price as any other Maysville paper--one copy of 25 cents a month, delivered by carrier or sent by mail.

You are looking for the most for your money, you can get it in THE LEDGER.

Now is the time to subscribe--suppose you give it a month's trial.

## The Business Way!

The business way to advertise is to take space by the year, take pains with your advertisements, making them attractive, and change them at least as often as once a month.

You may think there are seasons when you don't need to advertise.

We have never seen that time.

Use the dull seasons for looking over your stock and running off that which is becoming out of style or unfashionable, and giving bargains.

If you have space by the year, it costs you no more, and you can make it profitable by converting unsalable goods into money, and reinvesting the money in the things which are salable.

CERTAIN Democratic organs assert that the change that present business conditions are the result of Democratic ascendancy is "an insult to the people." The people deliberately elected CLEVELAND, we are told, on a Free-trade, wildcat money platform; and the statement that his election has brought about universal loss of confidence is scouted as "preposterous." This Democratic pretense is so obviously a humbug that it ought not to impose on any reader of ordinary intelligence. In the first place the assumption that Mr. CLEVELAND was the choice of a majority of American voters is a falsehood. Mr. CLEVELAND is a minority President. His supporters were in a minority of over a million in the popular vote last November. In the second place, Mr. CLEVELAND was not the choice of the substantial, intelligent citizens of the Nation. He was elected by a coalition between the Socialistic "cheap" money fanatics of the West, the Bourbon of the South and the great masses of unenlightened voters in Northern cities, who are unfamiliar with American institutions and misled by Democratic demagogues. The forces behind the Democratic candidate were the forces of disorder and destruction. Their success meant the triumph of ignorance and prejudice; it meant war on American industries; it meant debasement of the National currency; and the country was so accepted it. The Philadelphia Manufacturers' points out the absurdity of the Democratic pretense that the Cleveland Administration in any sense represents the business interests of the country. It says:

The fear which has come into commercial circles in this country represents the opinion entertained of Mr. CLEVELAND and his party by business men in the mass. These people did not elect him. The Americans who conduct the great business enterprises of the Nation did not want him in November and they have no

faith in him now. They plainly foresee that his success meant profound disturbance of business and the great intensification of the injury already inflicted upon it by falling prices. They opposed him because they had this vision, and when they were overruled at the polls, they began to prepare for the storm peril upon which we have now entered.

It is no wonder, says *The New York Press*, that Democratic newspapers are laboring desperately to persuade the business men of the United States that the responsibility for the shrinkage of more than a billion dollars in values since November 8th is due to the Sherman Law; it is no wonder that the Administration, in view of the enormous losses to the people already witnessed and the yet greater losses in prospect, puts forth "statements" after "statements" in the futile effort to convince the public that the crippling of credit and the death of enterprise are due to some other reasons than Democratic triumph on the Chicago platform of destruction. But the people are not deceived. They know that this Government has been purchasing silver since 1870, and that the Nation has made progress during that time in giant strides. They know that the country went on prospering under the Sherman Law so long as the Republican party was in power; they know that the year before the election of CLEVELAND, with the Sherman Law in full operation, was the most prosperous in the Nation's annals.

The Democratic party has declared that it will revolutionize every industrial condition. It has demanded the restoration of the irredeemable state bank currency of ante-bellum days. It has pledged itself to repeal the Tariff that maintains American industrial independence and American standards of living in the homes of labor. It has denounced the captains of American industry as robbers and oppressors; it has proclaimed them the enemies of society, and urged the necessity of making their investments valueless and of depriving them of the power to give employment to American workmen. In the face of this the cause of anarchy and falsehood GEORGE CLEVELAND has been found. He has shown himself the eager enemy of his country's industries and progress. He has played the part of a demagogue without conscience or patriotism, in order to win the applause of the ignorant and reactionist elements of his party. With such a man in the Presidential chair and such a party as the Democracy dominant in both branches of Congress, stoppage of enterprise, death of credit and widespread disaster to the interests of the Nation were inevitable. Search the Sherman Law for the causes of the Nation's loss of more than a billion dollars since November and you will search in vain. The factors which have changed conditions into disaster and prosperity into paucity are not found in the statute books. They are found in the demands of the Chicago platform and the record of the Democratic party.

EVERYTHING just now is cheap enough; but where's the money to buy it?

The able Editor of *The Times-Democrat* wants to know what a "driving spring" is. Well, we don't know; but it is probably a "tax."

BOYS, you haven't struck the edge of the cyclone yet. Just wait till Congress meets and then you'll know what real good Democratic "good times" is!

The people of Denver are trembling in their stocking feet lest there be an outbreak among the thousands of idle and hungry men who are walking the streets. Well, most of these same people wanted a change, and now they have it, be gosh!

Mr. CLEVELAND has made several mistakes, a fact which he himself is no doubt free to admit. But none of them stands out more boldly than his choice of Commissioner of Pensions. He ought, by all means, to have selected the Editor of *The Birmingham Times-Democrat* for that place.

A CLEVELAND Democratic friend thinks THE LEDGER is unfair in attributing the present conditions to the Democratic Administration. Well, you are promised us "good old-fashioned Democratic good times" when you get in power; and as you are now in power all along the line for the first time in a third of a century; and as the present times are so different from any that have existed during Republican rule, we take it for granted that they must be the good old-fashioned Democratic times that we heard so much about last fall. Let us pray!

### A CURIOUS CALCULATION.

Around the World 208 Times.

An eminent physician has made a curious mathematical calculation in giving the workings of the human heart in mileage. He shows that in a lifetime of 84 years the blood as it passes through the heart is thrown a distance of 5,150,880 miles, which in a continuous stream, would reach around the world 208 times!

Keeping in view this constant strain on the heart, and taking into consideration the abuse it receives from over-exercising, alcoholic and other stimulants, it is any wonder that it finally becomes affected, refuses to perform its work, and causes death? The fact can be readily understood that one in four has a weak heart, also the importance of treating that organ as soon as its affected condition is in the slightest degree manifested. Reader, if you have any reason whatever for believing your heart to be affected, you should attend to it at once. Do not hesitate. Many persons who die suddenly of this disorder have never suspected its presence.

Joseph Brady, Pittsburg, N. Y., writes: "Three years ago I began to have difficulty in breathing, palpitation of the heart, and my limbs and ankles were badly swollen. Physicians said I could not live long. I began to use *Dr. Miller's New Heart Cure*; the first bottle greatly relieved me, and after the second I was able to get on my feet. I took altogether so immensely benefited me that I am a new man. I cheerfully recommend this remedy."

While suffering from a severe attack of heart disease, and expecting to die, physicians having attended me no relief was obtained. I bought a bottle of *Dr. Miller's New Heart Cure*. Every dose I took right up, and it seems as though I should have died. I would willingly give the *New Heart Cure* bottles with gold for the magnitude of the relief they contain. If I could not get them on other terms, I would give them to you. "J. A. Hall, Franklin, N. Y."

For 20 years I was seriously afflicted with heart disease and nervous prostration, the latter affecting the entire nerve of my left side. During that time I was treated by many prominent physicians, and sent hundreds of dollars away for medicine, all of which failed. Recently I began using *Dr. Miller's New Heart Cure*, and am now entirely free from my old complaints. "George J. Berry, Park City, Utah."

*Dr. Miller's New Heart Cure* is sold on a positive guarantee by all druggists, or by *Dr. Miller Medical Co., Elkhart, Ind.*, on receipt of price per bottle, six bottles \$5, express prepaid. It positively contains neither opium nor dangerous drugs. Free book at druggist, or by mail.

## ACCEPTED.

A Conference of French Ministers  
Held Sunday Evening

And Now the French Cabinet is in  
a ferment.

Apparently England does More Than Her  
Share, and the French Minister Had  
a Row Before Siam Yielded—  
Newspapers Attack Develle

Paris, July 31.—The meeting of ministers to consider Siam's ultimatum and acceptance of France's ultimatum was held at the Elysee between 3 and 7 o'clock Sunday evening. President Carot came from Marly-le-Roi to preside. These members of the cabinet were present: Deput, premier; Poincaré, minister of education; Bismarck, minister of marine; Villet, minister of public works; Devilla, minister of foreign affairs; M. Terrier, minister of commerce and colonies; and M. Delcassé, minister of state for colonies. M. Delcassé telegraphed that they would support any action which the council might take. As far as can be ascertained, M. Delcassé, M. Terrier, M. Villet, and M. Viger, the other absentees, offered no special excuses.

After declining to accept Siam's concession of the French demands, the ministers deferred further definite action until measures should have been taken to guarantee Siam's independence of the French demands. They took steps, however, to inform M. Poincaré, French minister resident, now at Koh-Chang, of Siam's acceptance of the ultimatum and the consequent action of Sunday's council. The conference of the ministers was prolonged by a discussion of the steps which might be necessary in settling the boundary question between France and Great Britain. A certain amount of difficulty is expected to embarrass this part of the negotiations. Another cabinet meeting will be held on Tuesday, when an effort will be made to have all the ministers present.

Despite official denials, reports of cabinet dissensions multiply. The last story in confirmation of these reports concerns the cabinet council held on Wednesday. It is substantially as follows:

M. Delcassé, under secretary of state for colonies, proposed a treaty with Siam on the lines of France's policy towards Madagascar. A proclama-tion should be established, he said, and all of Siam's relations with other states should be arranged through the French government.

M. Devilla, minister of foreign affairs, replied hotly that such a proposal could not be accepted by the present ministry. He himself had pledged the government to maintain respect Siam's independence, and rather than violate his pledge by accepting M. Delcassé's project he would resign his office. After a long discussion M. Delcassé proposed as an alternative that France occupy Angkor and Battambang. M. Devilla refused to agree to this. He would consent only to a pacific blockade, he said.

On the following day M. Delcassé informed Premier Laroche of his intention to resign because he was convinced that a pacific blockade was an inadequate measure. On the same day M. Devilla, after a long interview with the Marquis of Dufferin, British ambassador, declared himself to be more determined than ever to continue the government's action to the limit. The differences between him and M. Delcassé were adjusted at the cabinet council on Thursday afternoon. Nevertheless, M. Delcassé is said to be dissatisfied, and is believed to be on the point of resigning.

These reports have induced the advanced radical newspapers to attack M. Devilla, on the ground that he has knuckled under to Great Britain. Whatever effects these attacks may have on domestic politics, it is reasonable to believe that they will not interfere with the settlement of the Siam question virtually within the limits determined by Great Britain.

The G. A. R. National Encampment.

INDIANAPOLIS, July 31.—In reviewing the outlook for the G. A. R. national encampment to be held here the first week of September, the executive committee indicates that the attendance will be the largest in the history of the organization, especially from the central and western states. The board is prepared to furnish free quarters in barracks for one hundred thousand persons.

The Benington Going to the Mediterranean.  
New York, July 31.—The U. S. gun-boat Benington, which sailed for the Mediterranean, was playing with a gilded ball pointed it at his step-year-old brother and died. The ball entered the child's forehead between the eyes, putting out both eyes and lodging at the base of the skull. Strange to say the child lived several hours.

Lived Several Hours.  
Union City, Tenn., July 31.—While the twelve-year-old son of John Sumners was playing with a gilded ball pointed it at his step-year-old brother and died. The ball entered the child's forehead between the eyes, putting out both eyes and lodging at the base of the skull. Strange to say the child lived several hours.

Died With Symptoms of Cholera.  
Lima, O., July 31.—A young man named Carroll, who arrived in this city Saturday morning on train No. 7 on the C. & D. from Detroit, reports that an emigrant child about 10 years old died on a train at Detroit very suddenly, and that the symptoms of the case are those of cholera.

An Akron Institution Goes to the West.  
Akron, O., July 31.—The Akron Savings and Loan association, of this place, closed its doors Saturday morning, after having been in business for 10 years.
